BioGreen™

PRO TURF GRANULAR 23-0-1.5

Bio Green USA Inc. continues to develop products for Lawn and Garden, Agriculture, and Arbor Care. All of our products are Bio-Based with many listed on the USDA Bio-Preferred Program for federal procurement. The focus of Bio Green is to feed the soil food web and thereby balance the existing soil conditions. Our products are all developed for uniform seed germination, to drive down deeper roots, and create an easier form of application for our end-users.

Bio Green Pro Turf Granular contains humic, fulvic, amino acids, and micronutrients that are essential in amending soil. The product harmoniously balances polysaccharides and micros to bring a food source to microbes and nutrients to dead or less than fertile soil. Users of Bio Green products have noticed an increase in organic matter, soils that move closer to a neutral pH, increased water retention in sandy soil, and better drainage in clay or tightly bound soil structures. Repeated use of Bio Green Granular will increase soil fertility, root depth, and color with every application.

Bio Green Granular is easy to use, and can be applied with any standard fertilizer spreader. No other all-in-one granular fertilizer on the market offers soil amending features, micronutrients, and amino acids in a high nitrogen all natural formula.

GUARANTEED ANALYSIS

23% NITROGEN (FEED GRADE UREA)
0% PHOSPHATE
1.5% POTASH
.4% SULFUR
MAGNESIUM
CALCIUM
MANGANESE
ZINC
COPPER
HUMIC, FULVIC, AND AMINO ACIDS

PROVEN PERFORMANCE

- 50 % Bio Based
- Slow release nitrogen
- Increases germination and rooting
- Provides essential amino acids
- Can be applied through any standard spreader
- Will not burn seed
- Naturally aids in balancing soil conditions
- Increases soil fertility

BIO GREEN MICRO NUTRIENT PACKAGE

Silver	Magnesium	Rhodium	Tungsten
Aluminum	Zinc	Manganese	Aspartic acid
Gold	Zirconium	Molybdenum	Glutamic acid
Boron	Selenium	Sodium	Serine
Barium	Uranium	Nickel	Threonine
Carbon	Bismuth	Oxygen	Clycine
Calcium	Beryllium	Osmium	Alanine
Chlorine	Niobium	Rubidium	Valine + methionine
Cobalt	Cadmium	Sulfur	Leucine
Copper	Chromium	Antimony	Isoleucine
Fluorine	Cesium	Silicon	Phenylalanine
Iron	Gallium	Tin	Tyrosine
Germanium	Indium	Strontium	Tryptophan
Hydrogen	Iridium	Tellurium	Cystine
Nitrogen	Palladium	Titanium	Arginine
Iodine	Platinum	Thallium	Proline
Potassium	Thorium	Vanadium	Histidine
Lanthanum	Radium	Cerium	Amide Nitrogen
Lithium	Bromine	Lysine

Product Specifications

Nitrogen derived from Feed Grade Urea,
Potassium derived from sulfate of potash
Iron derived from ferrous sulfate.
Contains non plant food ingredients:

- 50% Humic Acid from Leonardite
- 10% Fulvic Acid

Weight per bag..... 50 lbs.
pH..... 3.9
Nitrogen per bag..... 11.5 lbs nitrogen

Product Description:

Because of Bio Green’s unique bio based formulation, it is effective in all types of soil and on all types of plant life. Professional turf, lawns, flowers, shrubbery, trees, row and forage crops, pastures and natural habitats, etc. all thrive with Bio Green. Bio Green is ideal for dry applications to turf.

Bio Green uses nutrients that focus on the expansion of topsoil organisms. By providing foods based on pH, nutrient content and a large number of physiological factors, that these organisms will use efficiently, the numbers of these organisms will return to properly balanced populations quickly.

Bio Green granular is Complete:

- It contains all of the macro nutrients necessary for healthy plant development.
- It promotes the development of a healthy soil food web which is essential for building topsoil.

Suggested Uses:

Bio Green 23-0-1.5 granular fertilizer is recommended for all turf grass applications, including warm season grasses. It is effective on trees, shrubbery, ornamentals, flowers and home gardens.

Application

Bio Green 23-0-1.5 granular is applied with a granular spreader at a rate of 2.2 pounds per 1,000 square feet. **One 50 pound bag covers 21,780 square feet.**

Storage and Handling:

All Bio Green products can be stored in normal warehouse areas. They do not require special or hazardous material handling or storage. Bio Green has a slightly acidic pH, but is neither corrosive or abrasive.

Environmental Commitment:

Bio Green USA is committed to the preservation of our environment. Our goal is to nurture the soils and plant life of lawns and landscapes while protecting the environment from the pollutants associated with synthetic fertilizer and the over-use of pesticides and herbicides. We are committed to Reduce, Re-use, Recycle and Re-buy.

Keep out of Reach of Children
